TECHNICAL COMMISSIONS

WUKF Directing Committee will propose in Odessa a new structure and strategy of development of our organization. In the WUKF Congress in Odessa a new and more efficient structure will be proposed for discussions and approval by majority of votes.

One of the most important bodies in this new structure will be the Technical Commissions. A Style Technical Commission will be formed by all the representative, masters and trainers from every affiliated federation participating at our events. This commission will meet and decide the important development directing lines for the style in WUKF and the optimum methods and strategies for a continuous improvement of the activity between the events. The Style Technical Commission will elect a representative of the style, minimum 5th DAN, which will be delegate to represent the interests and the opinion of its members at the Superior Technical Commission (figure 1).

The Superior Technical Commission will be formed by one representative of every style, so a group of 5-7 members that could work very efficiently for elaborating common rules in WUKF competitions and life regarding the development of a strong and healthy Karate in our organization. The Superior Technical Commission will be connected permanently with the Referee Commission proposing improvement of competition rules, improving the referee activity also. This two commissions will meet periodically or as when will be necessary with the WUKF Directing Committee that based on the proposal of the commissions, in the frame of WUKF strategy will elaborate new objectives, new activities and rules of WUKF activity.

WORLD UNION OF KARATE-DO FEDERATIONS

Figure 1. The structure of Technical Commission

In this respect we invite all the masters and trainers with high Karate graduation from all WUKF affiliated federations to meet on 18th of June, 9:30 AM at Hotel Odessa Conference Hall for discussions and electing of their representing person to the Superior Technical Commission. Your presence at this event is extremely important, your opinion and experience could be decisive for a good start of the new WUKF strategy based on the consensus of the most important masters from all the styles. WUKF development must be conducted by the opinion and experience of the people that have “something to say in Karate”, not on the personal selfish and narrow will of a single person.

Please respond at our invitation and join the meeting of the WUKF Style Technical Commissions in Odessa. You are also invited to participate at the Technical Seminars on Styles that will take place one day before in the Sport Hall of Odessa (see the program).
